Naída CI Q Series & Accessories

by Advanced Bionics
Advanced Bionics is committed to providing the best possible hearing experience for our cochlear implant recipients. The HiResolution™ Bionic Ear System was designed to help recipients maximise their hearing potential and experience as much of the full spectrum of natural sound as possible.

This product catalogue features accessories and components that set the standard in quality and innovation, while allowing recipients to customise the Naída CI Q Series (Naída CI) sound processor to fit their needs—all weather, all sports, all terrain, all ages, all lifestyles.

Power on a Budget and on the Go

The Naída CI has a range of battery options to suit all lifestyles

**OFF-THE-EAR POWER OPTIONS**

**Naída CI Power Adapter**
- For a lighter weight wearing style, the Naída CI Power Adapter lets you wear the battery off-the-ear.

**AAA PowerPak Accessory**
- A lighter weight wearing option with long battery life, the AAA PowerPak allows recipients to wear the battery off-the-ear and enjoy up to 183 hours of battery life.

**ON-THE-EAR POWER OPTIONS**

**Disposable Batteries**
- Offering approximately 30 hours of battery life, disposable zinc-air batteries are ideal for travel and times when electricity is not available.

**Rechargeable PowerCel™ Batteries**
- Cost-effective and eco-friendly, rechargeable PowerCel batteries are available in three sizes for up to 25 hours of battery life.

The PowerCel Mini is the latest addition to the PowerCel battery portfolio, offering the same performance and battery life as the standard PowerCel, but in a smaller package.

The graph below illustrates the size and average operating hours of each PowerCel battery.

---

1 Battery life varies depending on the implant type, the program used, the thickness of skin flap over the implant, and the environment the recipient is encountering. The operating hours shown here are average figures and might not be applicable for each recipient.

From the innovation leader in waterproof technology comes the robust AquaCase accessory developed for Naida CI processors to provide the same great hearing during even the most rugged activities.

2 Check with your local AB representative for regulatory approval in your area.

3 PowerCel™ 110 battery, AquaMic headpiece, and AquaMic cable required.
your gateway to a world of Wireless Connectivity

Through AB’s close collaboration with Phonak, the world leader in hearing aid technology, Naída CI users have access to the largest selection of proven, high performing wireless accessories in the industry. Designed to suit individual recipient’s needs, lifestyle, and budget, these accessories offer solutions for better hearing in challenging listening situations. Recipients can reach out, tune in, and stay connected with wireless streaming from mobile phones, computers, media players, televisions, navigation systems, Bluetooth® enabled products, and countless other devices.

Not all Phonak wireless accessories are available for sale through Advanced Bionics in each geographical area. Please check with your local customer service representative for availability.

Roger 17 is only compatible with the PowerCel™ 170 battery for the Naída CI processor.

Headpieces

designed for comfort, convenience, and style

There are two headpiece options for use with Naída CI sound processors: the Universal Headpiece and the AquaMic™ headpiece. Compatible with all AB processors, the Universal Headpiece has been developed for use during everyday activities and features a sleek, low-profile design. Fully waterproof for use with the Naída CI sound processor and AquaCase™ enclosure, the AquaMic is designed for hearing while swimming, bathing, and showering. Headpiece caps and cables come in a variety of colours to choose from for mixing and matching or blending in with hair and skin.
